You and I see everything to some a differently. You see things from the point of your pewfouldy acquired grounders; I from mine. Strictly, no two p can see the same things in the saids we it can never happen that two percent precisely the same groups of lites relating any subject. These depend on our past nonce, on our struction, on the before times, on our virious seeks or parties, o get theories, or interests and our different dimention; Suppose and times, on our virtues seeks or pervies, or not theories, our interests and our de liters is a simple illustration. Eupopee et ut and an engineer standing side by over-odwing a tract of country. What perceive is the same; what they appeare wholly shifterest. To the engineer the try presents itself as a possible line for a road, with here advantageous grades there economic bridges. Before the extra present out a insidence, with high spair and hermony of colors. Suppose, age plot of fewel ground in the salvents of a fi colore student ridding by appeared we a possible ball ground; a young girl, as a mis colutt, a speculator, as an aduction to state girls; an undertaker, perhaps as a ble site for a cametary.—Profesior G. I Petrole in Popular Science Monthly.

The ans tall, unshared and indepent and he came from Findley. He had bened some out isned down in the field was "againg us" the least in a St. Clair a real ceite office.

"What's your wife's name?" highly clerk who was filling but the instrument "Harbara," Le replied.

"Harbara," Le replied.

"Harbara what?"

"What's does the M stand for?"

"What's Doe's how what the middle tal of your wife's name stands for?"

"Noge."

"Woy, man, how long have you been ried."

icit"
"Bo it forty-four years."
"Been married forty-four years and
now your wrie's middle mame?"
"Yed."
